MOVEMENT SPECIFICATION

First click:
set the date

Second click:
set the time

INSTRUCTIONS

ADJUSTING THE STOPWATCH HAND

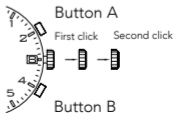

If either of the stopwatch hands are not in the "0" position, reset it by following the procedure below.

- 1) Pull out the crown out until the second click.
- 2) Press button B to reset the chrono second hands to the "0" position.

*The stopwatch minutes hand moves correspondingly with the stopwatch seconds hand.

*Each time you press the corresponding button, the pointer jumping one step; the hands move quickly if the buttons are kept pressed.

- 3) Push the crown back into the normal position.

INSTRUCTIONS

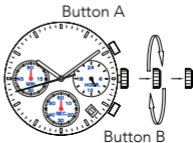

TIME / DATE SETTING

*Before setting the time, check that the chronograph measurement is stopped.

- 1) Pull out the crown until the first click.
 - 2) Turn the crown clockwise until the previous day's date appears.
 - 3) Pull out the crown until the second click, when the second hand is in the 12 o'clock position, it will stop on the spot. Set the hands to the desired time of the day (make sure AM/PM is set correctly) by turning the crown
- * When the crown is in the second click position, do not press any buttons (otherwise the chronograph hands would move).
- 4) Push the crown back into the normal position in accordance with a time signal.
- *Do not set the date between 9:00P.M. and 1:00 A.M, otherwise the day may not change properly. If it is necessary to set the date during this time period, firstly change the time to any time outside the time range of 9.00 P.M and 1.00 A.M, set the date and then reset to the correct time.

First click:
set the date

Second click:
set the time

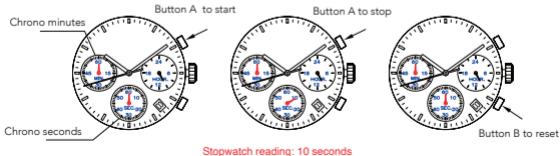

INSTRUCTIONS

HOW TO USE THE STOPWATCH

- * The measurement time is shown by the stopwatch hands that move independently of the centre hands (and 24-hour hand where applicable).
- * The stopwatch can measure up to 60 minutes.
